

Task 1 Compile a comprehensive list of foods, mixed dishes, and ingredients likely to be encountered during the survey that considers:

- Geographic areas that will be sampled with attention to urban/city
- The season(s) planned for the survey data collection
- The demographic groups that will be sampled.
- Commercially processed, prepackaged, biofortified, and fortified foods
- Foods and mixed dishes prepared outside the home (e.g., street foods, foods from vendors or kiosks, fast food, restaurant food)
